

CETACEA WORLD BOARD GAME

Welcome to the world of Cetacean's (whales, dolphins & porpoises). There are many adventures to be had and dangers to face as a cetacean living in the ocean.

Your whale or dolphin needs to get to their resting place. Can they make it and avoid the dangers?

What you'll need:

Playing piece for each play & 1 dice

How to play:

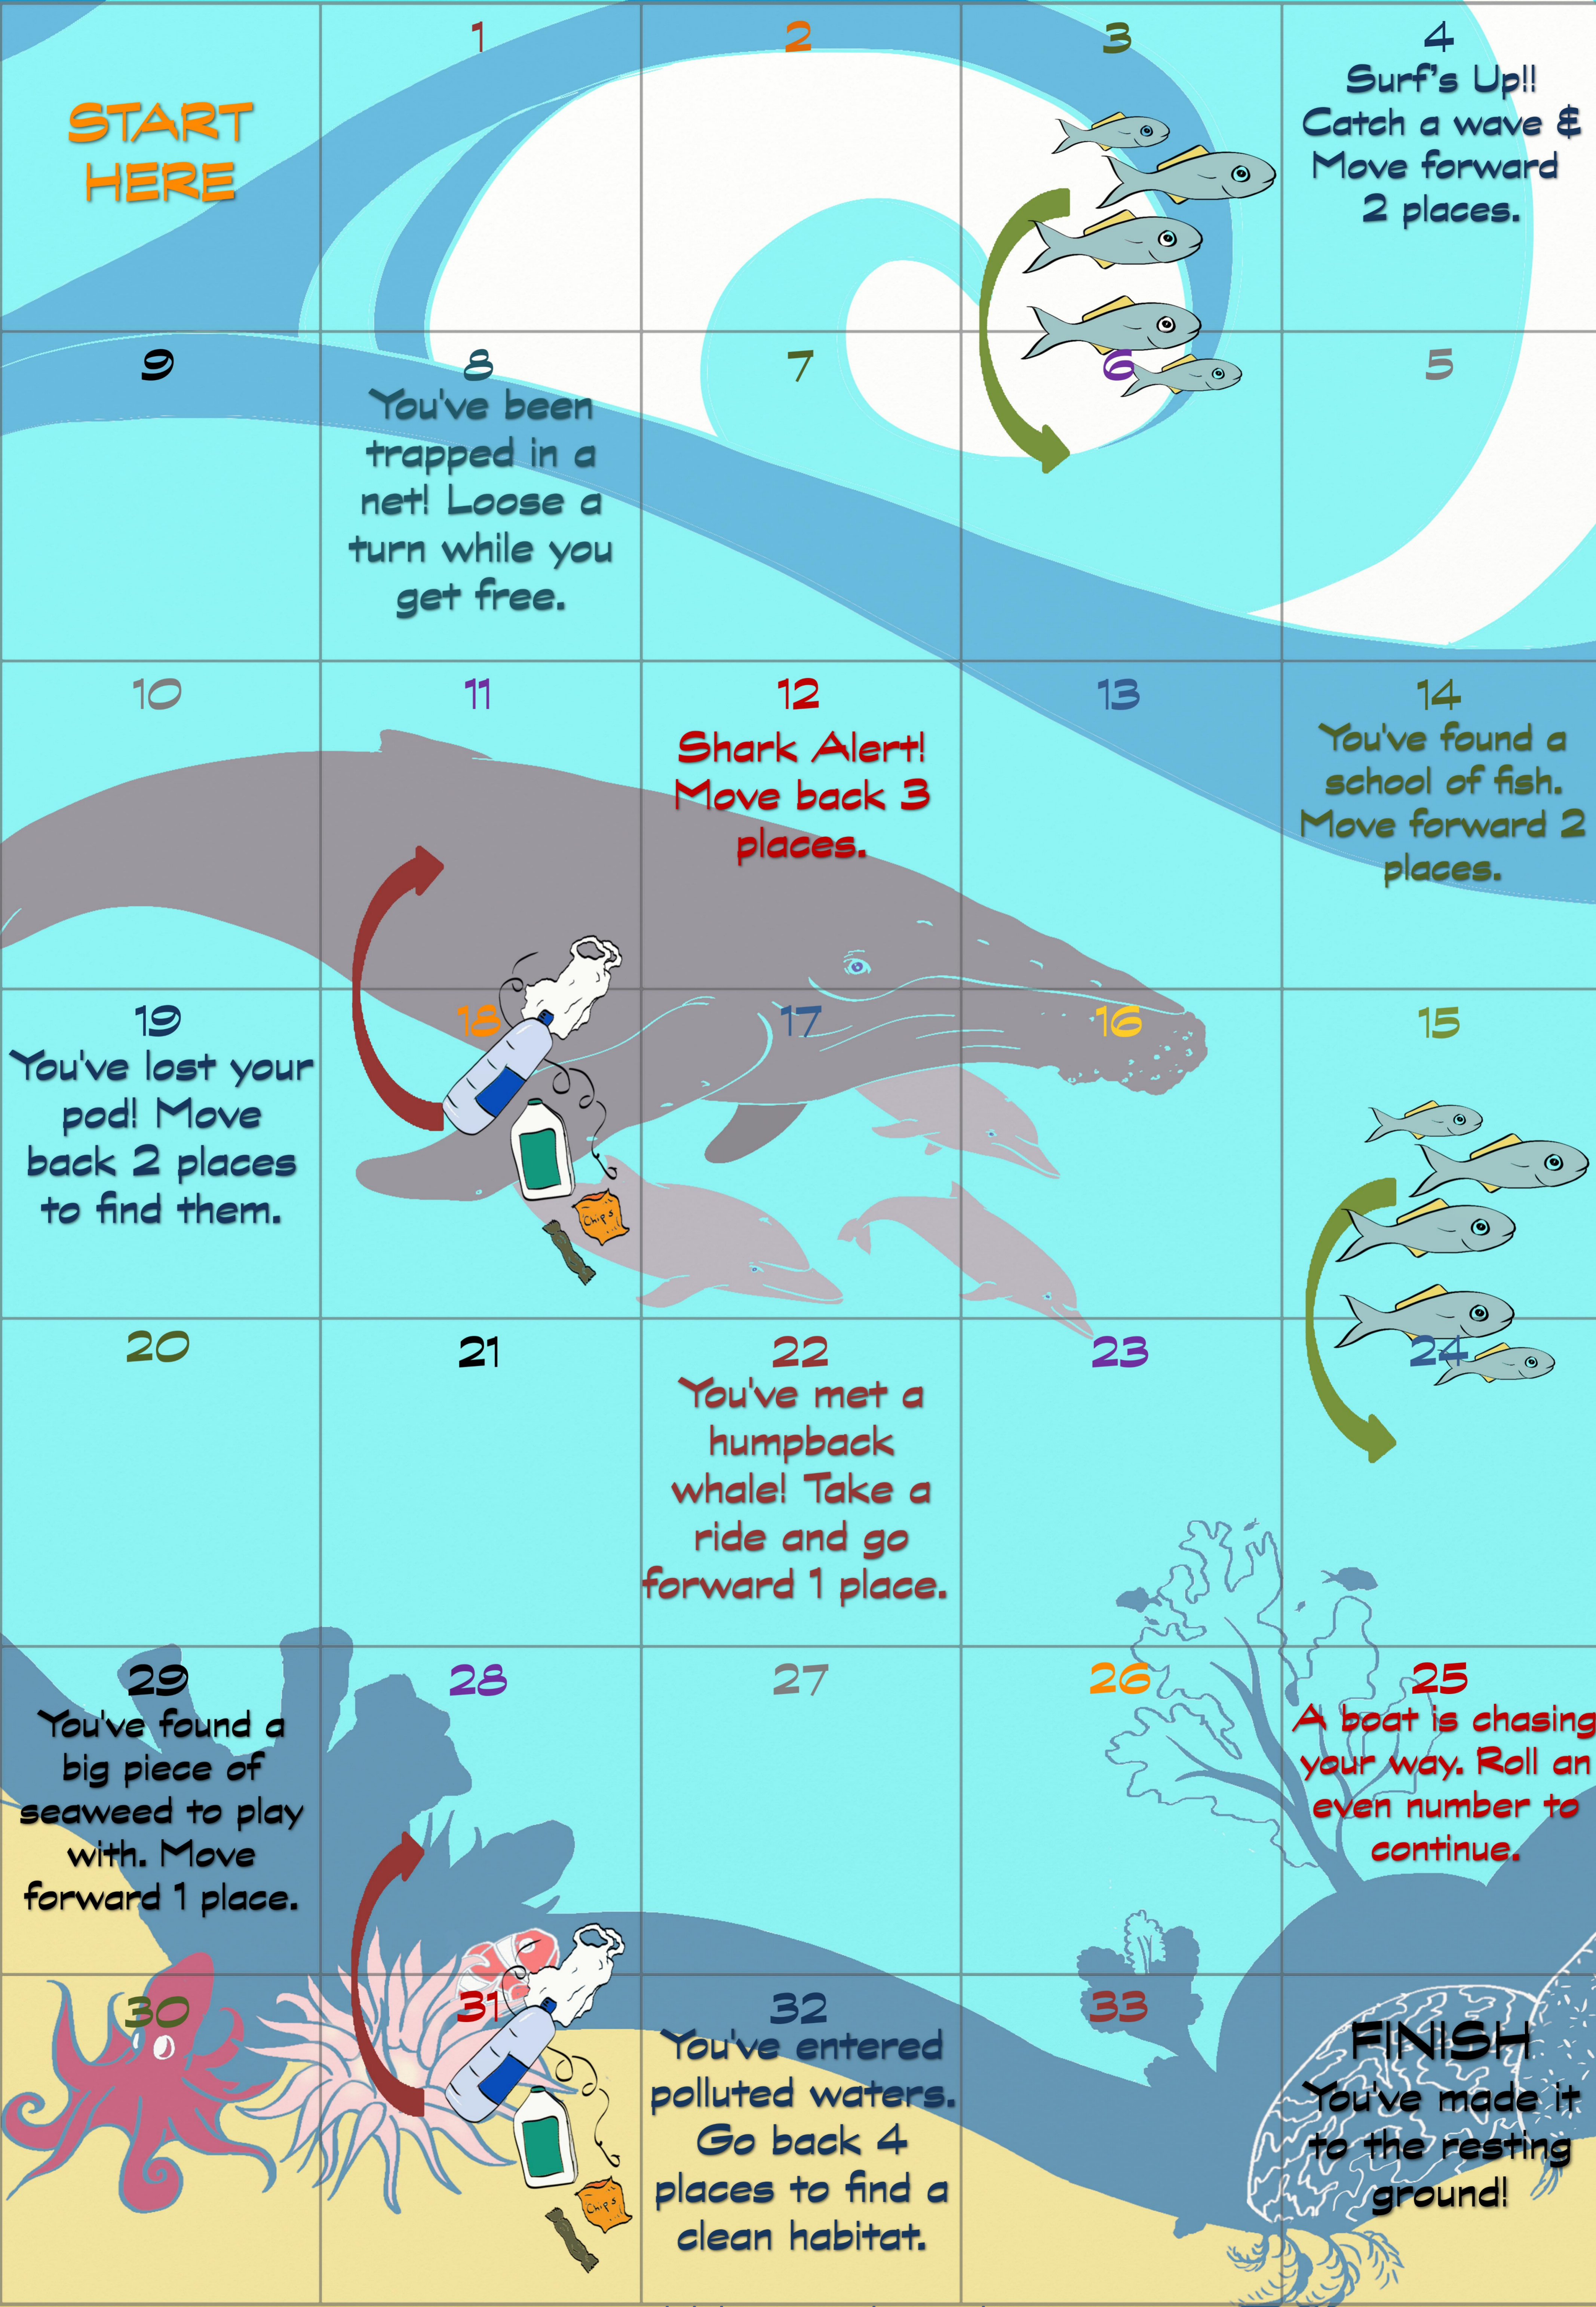

1. Place your play piece on the starting point.
2. Each player rolls the dice. The person that rolls the highest number starts.
3. If your piece lands on a place with a message, read carefully and follow the directions. Follow the arrow back if you land on a piece with a red arrow and move forward if you land on a green arrow.
4. To finish, you must roll the exact number. The first player to reach the resting ground wins.
